JOURNAL

OF

AGRICULTURE.

VOLUME XV.

(July – December, 1917.)

GENERAL INDEX.

A.

Agricultural and pastoral statistics, season 1916–17, 114.
Abortion, contagious, vaccine treatment for, in dairy cows, 15.
Accidental poisoning of live-stock, 251.
Acidity in cream, use of bicarbonate of soda for the reduction of, 308.
Adding to our economic flora, 267.
Afforestation, economical, in Nelson, 145.
Agricultural shows, forthcoming, 240, 364.
Algaroba, carob, or locust beans, 345.
Annual sheep returns, 154, 178.
Answers to correspondents, 52, 111, 174, 237, 299, 358.
Ants in lawns, 361.
Apiaries, registration of, 51, 177.
Apiary, the (monthly notes), 46, 106, 168, 228, 292, 350.
Arsenical spray for gorse, 359.
Ashes, coal, for the garden, 238.
Ashes, lignite or brown-coal, 340.
Australian fruit-trees, importation of, prohibited owing to root-knot, 63.
Australian stringhalt of horses (so-called), 20.

B.

Balancing cream-separator bowl, 52.
Barren ears in maize crop, 112.
Beans, algaroba, carob, or locust, 345.
Beehives, &c., how to destroy diseased, 151.
Bees, swarming of, 217.
Black-spot of apples (and pears), 98.
Blood in heifer's milk, 53.
Blue-gums attacked by weevil-grubs, 53.
Bone and charcoal for poultry, 175.
Bran and pollard, prices of, 236.
Branding and manufacture of whey butter, 364.
Brown-rot of fruit: Investigations in Hawke's Bay, 84.
Budding of fruit-trees, the, 322.
Building a sheaf-stack, 338.
Bull calf, rearing a, 176.

C.

Calves, castration of, 299.
Calves, lice on, 111.
Calves, septic absorption from navel in, 300.
Care of milk and cream on the farm, 248.
Care of sheep on green feed, 239.
Carob, algaroba, or locust beans, 345.
Carrots, growing, for sheep-feed, 277.
Castration of calves, 299.
Caterpillars in oats, 174.
Certificate-of-record cows, 129, 263, 332.
Certificates in packing and grading fruit, 283.
Chinese wax-tree, specimens of, 215.
Coal-ashes for the garden, 238.
Contagious abortion in dairy cows, note on vaccine treatment for, 15.
Control of grass-grub, 111.
Control of inkweed, 301.
Control of New-Zealand-flax grubs: Investigations into parasites, 303.
Co-operative fruit-variety testing: Lower Moutere test area, 155.
Cottages for married workers on farms, 204.
Cows and testing, 358.
Cows, foot-rot in, 174, 210.

Cows, forage crops for, 176, 238.
Cows, lice on, 53.
Cows, restoring cud in, 358.
Cow's teat, sore on, 361.
Cream and milk, care of, on the farm, 248.
Cream-separator-bowl balancing, 52.
Cream, use of bicarbonate of soda for the reduction of acidity in, 308.
Crop, winter breaking-in, 237.
Cropping and fodder conservation, extension of, 179.
Crops, electrical stimulation of, 185.
Crops, forage, for cows, 238.
Cucumbers, preserving in brine, 299.
Cud, restoring in cows, 358.

D.

Dairy-factories, registrations of, 1917, 38.
Danthonia pilosa seed, germination of, 300.
Dead-sheep skins, 113.
Defective threshing-machines, 151.
Development of peat swamps, 9.
Draining, some notes on open, 91.
Draining, points in pipe, 93.
Dressing pasture after lime, 299.
Dropping of buds in peach-trees, 360.
Dyestuffs, vegetable, of New Zealand, 55, 117.

E.

Economic flora, adding to our, 267.
Economical afforestation in Nelson, 145.
Effective soil-treatment in Westland, 37.
Electrical stimulation of crops, 185.
Ensilage in Westland, 284.
Establishment of paspalum, 342.
Estimated areas under wheat and oats, 302.
Experimental area, Otaika, 327.
Extension of fodder cropping and conservation, 179.
External parasites of sheep in New Zealand, 73.

F.

Farming Development Association, the Hawke's Bay, 152.
Fermenting of honey, 175.
Field-roots, raising seed from, 112.
Flax areas, the Makerua and Moutoa, in relation to larval attack, 25.
Flora, adding to our economic, 267.
Fodder cropping and conservation, extension of, 179.
Foot-rot in cows, 174, 210.
Forage crops for cows, 176, 238.
Forage crops for wet season, 175.
Forestry in New Zealand, 344.
Fruit-case timber supply, the, 145.
Fruit, importations of fresh, 173.
Fruit, packing and grading certificates in, 283.
Fruit-trees, the budding of, 322.
Fungoid disease attacking pears, 96.

G.

Garden, the (monthly notes), 49, 108, 171, 233, 296, 355.
Germination of *Danthonia pilosa* seed, 300.
Gorse, arsenical spray for, 359.
Government purchase of 1917–18 wheat crop, 177.
Grading and packing fruit, certificates for, 283.
Grass-grub, control of, 111.
Grass-mixture, Te Kauwhata land, 262.
Green feed, care of sheep on, 239.
Growth on horse's fetlock, 175.

H.

Hawke's Bay Farming Development Association, the, 152.
Hedges and hedge-planting, 69.
Heifers with swollen udders, 299.
Hides, sheep-skins, and wool, purchase of, by the Imperial Government, 362.
Holly-plants, raising, 361.
Home-buttermaking troubles, 54.
Honey, fermenting of, 175.
Horse's fetlock, growth on, 175.
Horses, lice in, 52, 360.
How to destroy diseased beehives, &c., 151.
Humble-bees in New Zealand, 184.

I.

Importations of fresh fruit, 173.
Indigenous tans and vegetable dyestuffs of New Zealand, the, 55, 117.
Inkweed, control of, 301.
Intensive culture in France, 236.

J.

Journal, reduction in size of the, 19.

K.

Killing and plucking of poultry, 79.
King Island melilotus-seed for distribution, 235.
Kumara-plants for distribution, 220, 302.

L.

Lambing estimates, 275, 316.
Lambs attacked by blood-sucking animal, 301.
Lambs, rearing motherless, 238.
Land-drainage, 91, 93.
Larval attack, the Makerua and Moutoa flax areas in relation to, 25.
Laying-down of pastures under present conditions, 241.
Leech on hawthorn-bushes, 300.
Lemon-trees, scale-infected, 113.
Lice on calves, 111.
Lice on cows, 53.
Lice on fowls, 301.
Lice on horses, 52, 360.
Lighter soils of the North Island, studies on the, 196.
Lignite or brown-coal ashes, 340.
Lime, dressing pasture after, 299.
Lime treatment for potato-blight, 29.
Limestone-crushing test, 190.
Limestone-deposits, reports on, 343.
Live-stock slaughtered, 110.
Live-stock, accidental poisoning of, 251.
Locust beans, algaroba, carob, or, 345.
Lucerne-meal for poultry, making, 359.
Lucerne-meal for poultry and pigs, 176.
Lucerne, rhizoctonia (root-fungus) in, 276.
Lupins for green-manuring in garden, 300.
Lyons Fair Information Bureau, 144.

M.

Machine sheep-shearing and national efficiency, 134.
Maize crop, barren ears in, 112.
Makerua and Moutoa flax areas in relation to larval attack, 25.
Making lucerne-meal for poultry, 359.
Mangels, &c., seed-bed method of raising, 135.
Manufacture and branding of whey butter, 364.
Maximum price of wheat, 302.
Meat-export position, the, 235.
Meat-storage and shipping-space, saving of, 16.
Milk and cream, care of, on the farm, 248.
Milking-shed systems, 240.
Model Dairy Farm and Experimental Area, Stratford, 317.
Moutere Hills, orchard cover-crop experiments for, 341.

N.

Newly broken scrub land and root-fungus, 111.
New-Zealand-flax grubs, control of, 303.
Note from France, 236.
Note on vaccine treatment for contagious abortion in dairy cows, 15.
Noxious weeds as an administrative problem, 191.
Nuts, pecan, 239.

O.

Oats and wheat, estimated areas under, 302.
Oats, caterpillars in, 174.
Orchard-spraying experiments in the Stoke district, 30.
Orchard cover-crop experiments for Moutere Hills, 341.
Orchard, the (monthly notes), 39, 101, 163, 221, 285, 346.
Orchards, registration of, 177.
Orchards under sod, 237.
Otaika experimental area, 327.

P.

Packing and grading fruit, certificates in, 283.
Parasites of sheep, external, 73.
Paspalum, establishment of, 342.
Pastures, the laying-down of, 241.
Pea-seed, selection of, 216.
Peach-trees, dropping of buds in, 360.
Pears, a fungoid disease attacking, 96.
Peat swamps, development of, 9.
Pecan-nuts, 239.
Pig-feed, 239.
Pig, protrusion of back passage in, 359.
Pipe draining, points in, 93.
Plucking of poultry, 79.
Poison for small birds, 68.
Poison-ivy and Virginian creeper, 162.
Poisoning rabbits with strychnine, 150, 336.
Poisoning of live-stock, accidental, 251.
Pollard, prices of bran and, 236.
Potato-blight, lime treatment for, 29.
Potato, a "water," 209.
Potato-scab, preventives of, 113.
Poultry-keeping (monthly notes), 43, 103, 166, 227, 289, 348.
Poultry, killing and plucking of, 79.
Preventives of potato-scab, 113.
Prices of bran and pollard, 236.
Preserving cucumbers in brine, 299.
Protrusion of back passage in pig, 359.

Purchase of wool, sheep-skins, and hides by the Imperial Government, 362.
Pukatea timber, 133.

R.

Rabbit pest, the, 206.
Rabbits, poisoning with strychnine, 52, 150, 336.
Raising holly-plants, 361.
Raising seed from field roots, 112.
Rearing a bull calf, 176.
Rearing motherless lambs, 238.
Reclamation of tidal-swamp lands in North Auckland, 328.
Registration of apiaries, 51, 177.
Registration of orchards, 177.
Registrations of factories, &c., under Dairy Industry Act, 38.
Reports on limestone-deposits, 343.
Restoring cud in cows, 358.
Rhizoctonia (root-fungus) in lucerne, 276.
Root-fungus, newly broken scrub land and, 111.
Root-knot of fruit-frees : Importation of Australian trees prohibited, 63.
Rotting of turnips, 54.

S.

Sale of lamb-pelts, 361.
Saving of meat-storage and shipping space, 16, 203.
Scale-infested lemon-trees, 113.
Scion-selection, the "pedigree tree" and, 314.
Seed-bed method of raising mangels, &c., 135.
Selection of pea-seed, 216.
Septic absorption from navel in calves, 300.
Sheaf-stack, building a, 338.
Sheep, external parasites of, 73.
Sheep-feed, growing carrots for, 277.
Sheep-returns, annual, 154, 178.
Sheep-shearing, machine, and national efficiency 134.
Sheep-skins, wool, and hides, purchase of by the Imperial Government, 362.
Sheep-ticks, eradication of, 73.
Shipping space, saving of, 16.
Show fruit, standardization of rules for judging, 159.
Shows, dates of agricultural, 240, 364.
Silver-blight on apple-trees, 358.
Silver-blight, treatment at Ruakura, 357.
Size of the *Journal*, 19.
Skins, dead-sheep, 113.
Small birds, poison for, 68.
Soils of the North Island, studies on the lighter, 196.
Sore on cow's teat, 361.
Sorrel and surface-sowing of hilly tussock country, 359.
Specimens of Chinese wax-tree, 215.
Spray-testing at Arataki for summer control of woolly aphis, 23.
Stacking and thatching demonstration, 90.
Standardization of rules for judging show fruit, 159.
Statistics, agricultural and pastoral, season 1916–17, 114.
Stoke district, orchard-spraying experiments in the, 30.
Storage and shipping-space, saving of, 203.
Stratford Model Dairy Farm and Experimental Area, 317.
Stringhalt of horses, so-called Australian, in Canterbury, 20.
Strychnine for rabbit-poisoning, 52, 150, 336.
Studies on the lighter soils of the North Island, 196.
Sudan grass, 360.
Swamps, development of peat, 9.
Swarming of bees, 217.

T.

Tans and vegetable dyestuffs of New Zealand, the indigenous, 55, 117.
Testing, certificate-of-record, 129, 263, 332.
Thatching and stacking demonstration, 90.
Threshing-machines, defective, 151.
Tidal-swamp lands in North Auckland, reclamation of, 328.
Tomato-culture, 136, 211, 278.
Top-dressing for paddock, 54.
Turnips, rotting of, 54.
Tutu poisoning in cattle, 307.

U.

Udders, heifers with swollen, 299.
Use of bicarbonate of soda for reduction of acidity in cream, 308.

V.

Vaccine treatment for contagious abortion in dairy cows, 15.
Vegetable dyestuffs and indigenous tans of New Zealand, 117.
Virginian creeper and poison-ivy, 162.
Viticulture (monthly notes), 231, 295, 353.

W.

Wax-tree, specimens of Chinese, 215.
Western Wolths rye-grass for forage crop, 301.

Westland, effective soil-treatment in, 37.
Westland, ensilage in, 284.
Wheat crop, Government purchase of 1917–18, 176.
Wheat and oats, estimated areas under, 302.
Wheat-growing in the North Island, 1.
Wind-breaks for fruit-farms, 253.
Winter breaking-in crop, 237.
Wireworms in the vegetable garden, 239.
Woodlice, 238.
Wool, branding of, by growers, 302.
Wool-clip, the coming season's, 113.
Wool, sheep-skins, and hides, purchase of by the Imperial Government, 362.
Woolly aphis, spray-testing at Arataki for summer control of, 23.
Work for the coming month, 39, 101, 163, 221, 285, 346.
Whey butter, manufacture and branding of, 364.

ILLUSTRATIONS.

A wheat harvest at Weraroa : *Frontispiece, July.*
Development of peat swamps— Page
Burning peat lands at " Trecarne " 11
Grassed peat lands at " Trecarne " 11
Saving of meat-storage and shipping space—
Mutton carcase cut for space-saving 16
The space-saving treatment contrasted with ordinary method .. 17
Carcases in cooling-room treated by the space-saving method .. 18
Stack of the severed carcases in freezing-chamber 18
The Makerua and Moutoa flax areas—
Map showing relation of Makerua and Moutoa Swamps to Manawatu River, &c. 26
Right bank of Manawatu River just below Linton 27
Manawatu River between Shannon and Foxton 28
Effective soil-treatment in Westland : Cutting the second hay crop on the land near Greymouth 37
Tractor-ploughing at Weraroa Central Development Farm : *Frontispiece, August.*
Root-knot of fruit-trees—
Root-knot on fruit-trees imported from Australia 65
Two Australian pear-trees which developed root-knot 67
Certificate-of-record cows : Meta 78
Killing and plucking of poultry—
Dislocating the neck 80
Plucking the tail-feathers with one movement 80
Commencing to pluck the back 81
Stripping the breast and sides 81
Plucking the abdomen 82
Removing the flight-feathers with one pull 82
The operation completed 83
Stacking and thatching demonstration at Palmerston North Show .. 90
Land-drainage—
Plans of open drainage-systems 92
Pipe drain laid at " Wairakaia " 94
A fungoid disease attacking pears : Pear (Fertility) attacked by *Entomosporium maculatum* 97
Haymaking in Westland 100
Imported Herefords at Somes Island Quarantine-station : *Frontispiece, September.*
Certificate-of-record testing : Woodcrest Pietje Kate 131
Tomato-culture : A properly pruned tomato-plant 141

	Page
Economical afforestation in Nelson—	
Country now being planted by the Moutere Pines Company	146
Planting *Pinus insignis* on Moutere Hills with miners' picks	147
Pinus insignis, Pigeon Valley	148
Plantation of *Pinus insignis* on Moutere Hills	149
Co-operative fruit-variety testing : Lower Moutere test area	155
Pear Winter Cole. Five years	156
Apple Yates. Five years	156
Apple Delicious. Five years	158
In the Waikato : *Frontispiece, October.*	
Electrical stimulation of crops—	
Mr. Lunt's glasshouse at Spreydon	187
Mr. Farr's orchard at Fendalton	187
Studies on the lighter soils of the North Island—	
Pot experiments with pumice soil : Second cutting	198
Pot experiments with pumice soil : Fifth cutting	200
Graph of pot experiments with clover on coarse pumice soil	202
Chinese wax-tree at Valetta Station	215
Taranaki hills and herds : *Frontispiece, November.*	
Care of milk and cream on the farm : Plan of milking-shed and yards	249
Certificate-of-record cows—	
Belvedere Sultana	264
Model Queen	264
Tomato-culture—	
Tomato fruit-blight	279
Tomato-plants affected with eelworm	281
Harvest in Marlborough : *Frontispiece, December.*	
Control of New-Zealand-flax grubs	
Small ichneumon wasp parasitic on *Xanthorhoe praefectata* grubs	304
Grubs of *Xanthorhoe praefectata* hatching from a batch of eggs on flax-leaf	304
Parasitized larva of *Xanthorhoe praefectata*	305
Parasite emerging from destroyed flax-grub	305
Syrphus ortas and *Phorocera marginata*	306
Stratford Model Dairy Farm and Experimental Area—	
Centre of farm in condition when taken over by society	319
Clearing the cow-shed site	321
Certificate-of-record cows—	
Flora II	333
Wairuna Clover	333

A Wheat Harvest at Weraroa.
